

Mr. John [unclear]  
 15 p 1 p 24 32

Dear Sir,  
 I have the honor to acknowledge the receipt of your letter of the 15th inst. in relation to the above named matter. I am sorry to hear that you are not satisfied with the result of the investigation. I have, however, no objection to your making such use of the facts as you may see fit. I am, Sir, very respectfully,  
 Yours, etc.,  
 J. H. [unclear]

The mountain range shown in the sketch above is located in the state of Washington. The highest peak in the range is Mt. St. Helens, which is a very active volcano. Mt. Rainier is also a very active volcano, but it is not as high as Mt. St. Helens. The range is part of the Cascade Range, which runs from the state of Oregon in the south to the state of British Columbia in the north. The Cascade Range is a very young mountain range, and it is still growing. The Cascade Range is made up of many different types of rocks, and it is very beautiful. The Cascade Range is a very important part of the landscape of the Pacific Northwest.

The weather is -  
 a hot & clear day with some  
 wind from the north. The  
 breeze is light & the sun is  
 high in the sky. The  
 temperature is about 80°  
 & the humidity is not  
 oppressive. The  
 wind is from the north  
 & the sun is high in the  
 sky. The temperature is  
 about 80° & the humidity  
 is not oppressive.
